

Quick Access Panel Fastener

A plastic quarter turn panel fastener W212 for perforated profiles $\square 9,5$ mm, manufactured from high strength PA6 GF15 V0 material.

The panel fastener is supplied pre-assembled, making it quick and easy to connect cover panels to the enclosure by turning 90°.

The shape of the head allows for easy installation and removal of cover panels without the use of additional tools. This makes the fastener perfect for rack and data cabinets, and the option of additional seal protection, makes it even more secure.

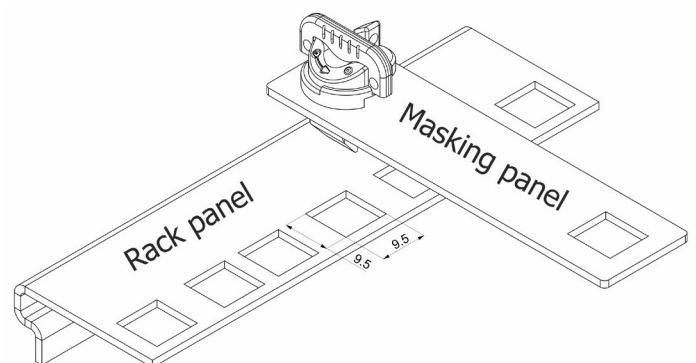

It is also suitable for use in enclosures for the power industry or wherever a durable fastener with a high V0 fire resistance level is required.
