

Mechanical Combination Locks for College Sports Locker Rooms

Reliable Security, Simplified Management

Optimize your sports locker rooms with Lowe & Fletcher mechanical combination locks. Our range offers various security features, including auto-scramble and code-finding functions, meaning that codes can be easily identified and changed when required.

Our locks are engineered to withstand the rigors of high-performance athletic environments, ensuring long-lasting protection for athletes' belongings. With a focus on core functionality and robust construction, our mechanical locks deliver consistent security without the need for hard wiring.

"The locks are easy to use and keep our players and coaches personal items safe and secure."

- ✓ Patented Code Finder Function (patent ID: US10030415B2)
- ✓ Anti-tamper Design
- ✓ Versatile Range (Available in a range of shapes, sizes and finishes)
- ✓ Up to 10,000 Code Combinations
- ✓ Auto Scramble Function (selected models)
