

Elevate Your Locker Room Security with our Wet Area Locks

Protect Athletes, Enhance Facilities, Minimize Risk

Your college athletes deserve a space where they can focus on their performance, without worrying about the safety of their belongings and equipment.

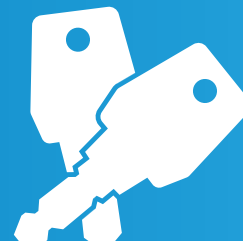

Unlike traditional locking mechanisms, which can be compromised by moisture damage in wet conditions, Lowe & Fletcher wet area locks are expertly manufactured to deliver unwavering performance and convenience in high-performance college athletic facilities, providing unparalleled security and durability.

Built with corrosion-resistant materials, these locks and their internal components can withstand moisture and chlorine exposure without security being affected. Whether you prefer the simplicity of mechanical locks or the sophistication of electronic options, Lowe & Fletcher has the perfect solution to safeguard your athletics facilities.

- ✔ Digital & Mechanical Options
- ✔ Enhanced Security
- ✔ Improve Hygiene with Contactless Features
- ✔ IP65 Water Resistance
- ✔ Public, Private and RAS User Modes
- ✔ Keyless Entry
